Juanita and Mother Auswer That Their Water Rights Have Been Infringed by Real Estate Operation Plan

Up on "The Hights," where Joa quin Miller faced the Golden Gate and the seven seas, quaffed the trade winds with his wine, and wrote those poems which brought fame to his State and his name, rude controversy is riding the hills; there is a jangle of harsh words and harmony has

The cause, according to Harold French, president of the Contra sta Hills Club, who has written a letter of protest to Jay B. Nash of the city recreation department, is the rerusal of Mrs. Miller and Miss Juanita Miller to permit visitors, bound for the city's recreation camp, to pass French even charges hat visitors are misdirected and that in one case personal injury resulted.

On her fourth-acre, in the heart of the city's new park, Juanita Miller refuses to be ruffled by the charges of the Hills club president.

"It is all a question of water." she explained, "and a question of real estate ventures. So long as my water has been diverted, why should I give directions to help out in the selling of poet's daughter says, is on her own

demorandum Opposing the Increased Tariffs Is Filed With Rail Commission by Communities of Eastbay

Grave Economic Consequences Will Follow Advance and Road Should Show the Necessity for Boost, Claims

Asserting that the opposition is "not one of mere obstruction," but is intended to be one of intelligent criticism based upon pertinent reasons therefor, the city attorneys of Oakland, Berkeley and Alameda today filed with the State Railroad Commission a memorandum setting forth four objections to any increase in ferry and commutation rates be-tween San Francisco and Oakland, Berkeley and Alameda.

In the memorandum the bay cities take exception to the claim of the railroads that as far as their freight and passenger rates throughout California is concerned, that time does not permit a thorough consideration of each class of rates. The cities also oppose the railroads' claim that processes of obtaining mmediate money to finance the improvement of service was more imdjustment and allocation of rates between the various classes of con-

COUP AIMED AT POLAND IN PLOT TO SEIZE POWER

Exclusive cable to the International News Service and London Daily

WARSAW, Aug. 15, via London. Aug. 16 .- With the Russians closing in about Warsaw and the city threatened with immediate capture, Poland is threatened today with serious internal dissensions.

M. Dmowski, leader of the national Democrats, who has gone to Posen, is reported to be preparing for a military coup to seize power. Steps are said to be under way at Fosen for the formal army with the object of overthrow-ing the administration of General

Pilsudski and establishing a new revolutionary government M. Dmowski was quoted as saying

in a speech:
"We will not only drive the enemy from our country but go to War-

saw and restore order."
It is evident that the Russians are making a supreme effort to take Warsaw before the armistice and preliminary peace negetiations get under way at Minsk. A feeling of gloom has followed the optimism that prevailed when the armistice delegation set out for Minsk Satur-day morning. Official circles held out the hope Saturday that "within Poles are furiously defending their to the Berlin Morgenpost today. Your Successor

How will the successor to your fortune conserve it?

You made many mis-steps in investing, particularly in your younger days. But for them your fortune would be larger. Will your successor repeat?

Here is a suggestion; think it over:

Give your successor a good investment training now. Establish an acquaintance with safe counsel and proper methods. This will avail much after your

The way to accomplish this is to employ the "Bank of Italy Trust Plan" for creating, by in-talments, an independent estate for your successor, and let him or her attend to details in connection therewith.

This plan will serve a double purpose: It will create a fortune that might otherwise not materialize; and it will insure permanency of its benefits to your

You simply take Ivory Soap Flakesmild, pure, safe Ivory in convenient flake form--and make a suds in an ordinary basin. Most folks use the bathroom wash bowl for small pieces.

Just a few of the fleecy flakes make a rich, delicate suds instantly. Put in the fine things, dip and swirl them around in the wonderful cleansing lather, and they come out clean, lustrous and just as good as new.

No rubbing. The thick suds gently loosen the dirt so it floats away in the rinse water.

American Theater

The TRIBUNE'S Aunt Elsie and 50,000 clubs, together with the American Theater, have planned a hig before-school-opens moving picture and vaudeville show for the children of Oakland and vicinity next Saturday morning.
"Going Some," Rex Beach's fam-

ous story, which is the feature picture this week at the American, is going to be shown especially for you absolutely free. The TRIBUNE'S clever inveniles

under the direction of Mrs. May Tyrrel and Beverly Sawbey will put on special dances, songs and acts of their own. Every child in Oakland who can smile is invited to join in the fun. Just be at the doors of the American Theater before 2:45 Saturday morning. Children under 10 must be accompanied by their mothers or older brothers or sisters. The return engagements of Betty

Jane Teeple, Malcolm MacGregor and Alverta Blair are sure to meet with general approval. These clever performers, together with the following old-time favorites, Bernice Claire Jahnigen, Florie May Tyrrel and Miss Dorothy Bucchner are sure to please as they always do, and as they will have all new songs, dances and acts this time you will want to enjoy the fun. A new member has also been added who has a clever little act of her own to offer. She is little Unita Uhl, who is known for her clever dancing among the kiddies of Oakland.

You Just Try NR For That Indigestion

Get your organs of digestion, assimilation and elimination working in harmony and watch your trouble disappear. NR does it or money back.

One Day's Test Proves NR Best

The stomach only partly digests the food we eat. The process is finished in the intestines where the food is mixed with bile from the liver. It must be plain to any sensible peron who realizes this, that the stomach, liver and bowels must work in harmony if digestive troubles are to be avoided or overcome. This fact also explains why sufferers from indigestion, also suffer more or less from headaches, billousness and constipation.

If you are one of the many unfortunate persons who cannot eat without suffering afterward, if you are constipated, have billous spells, headaches, coated tongue, had breath rariable appetite, are nervous, losing energy and feel your health slipping away, take this advice and get a box of Nature's Remedy (NR Tablets) gight today and start taking it.

Give it a trial for a week or two

and just see how much better you feel. See how quickly your sluggish bowels will become as regular as clock work, how your coated tongue clears up and your good, old-time appetite returns. See how splendidly your food will digest and how your energy, "pep" and "ginger" revive. Just try it.

SAN FRANCISCO, Aug. 16 .- The following open letter has been adpracticing in San Francisco, com-mending the candidacy of Judge W. A. Sloane to fill the unexpired term of two years on the Supreme bench:

To the Voters: On May 1, 1920, Governor Stephens appointed W. A. Sloane of San Diego, an associate justice of the Supreme Court of Califor-nia, to succeed the late Justice Henry A. Melvin. Under the Constitution, Justice Scane holds of-fice until the general election in November next, when the voters will elect a candidate to fill Jus-tice Melvin's unexpired term of two years. Justice Sloane has qualified as a candidate for this unexpired term and his name will appear on the ballot at the primary on August 31, 1920.
The undersigned members of

the San Francisco Bar cordially recommend his election. In the ten years of his judicial career Justice Sloane has proved himself a judge of exceptional merit, and one possessing great capacity for the efficient dispatch of judicial business; and he is a man of the highest character and integ-

Justice Sloane has been a resident of San Diego for 32 years. He was appointed judge of the Superior Court of that county by Governor Johnson and was subsequently twice elected to the position, holding it for eight years. He later served as associate justice of the District Court of Appeal at Los Angeles from January 1, 1919, until May 1, 1920, when he became an associate justice of the Supreme Court. Because of his judicial experi-

How We Sterilize Your Family Washing

Unseen foes of good health lurk about us-in the air, in our clothes.
We know that clothes that merely look clean may be highly impure. To be TRULY clean, clothes must be STERILIZED as well as washed.

That is one of the many reasons our laundry service should appeal to you. When you send them to us, your bed linens, garments and household things are more than washed They are purified. We are able to do this because we completely change from nine to twelve times the waters in which we wash your clothes. In addition, we use a number of disinfecting solutions. One of these is "Javelle Water." "There is absolutely no chance for disease being pread through the modern laundry," declares Dr. H. G. Elledge of the Mellon Institute of Industrial Research, who has in-

vestigated laundry methods. Can you be as sure of this cleanliness and sterilization when you entrust your family bundle to some unknown Let us help you safeguard the health of your family. Send

Your Table Linen and Bill Smith's Overalls

"I would like to use the laundry," said Mrs. Porter, "but I just can't bring myself to the thought of having my table linen washed with Bill Smith's overalls, and Sam Brown's socks."

Mrs. Porter unwittingly exposed in this remark her lack of familiarity with modern laundry methods.

Really, it would make little difference from the sanitary point of view if this mixing were practiced, for everything the modern laundries of the East Bay Cities wash, is sterilized as well as cleansed.

But actually, there is no such promiscuous washing. The things that come to the modern laundries

of the East Bay Cities are carefully sorted. Hosicry is washed only with hosiery, table linen

only with table linen, "pinks" only with "pinks" and so on. Each class of goods is washed separately from the other—and the water renewed from nine to twelve times while laundering is in progress.

This is a method superior even to that of the laundress. You receive your washing back sweetly clean—and pure.

But are you sure of this when you send your washing to some unknown place. where there is no supervision, and little knowledge of modern laundry sanita-

Does Sucking Its Thumb Really Harm Your Baby?

By Dr. LEONARD K. HIRSHBERG. A. B., M. A., M. D. (Johns Hopkins University.) There is a widespread impression,

unsupported by facts, that a baby must by all means be made to stop sucking its thumb. Observations just made by Prof. David Fairchild and published in the Journal of Heredity come with pleasant shock to those parents whose children at thumb-suckers.

Is thumb-sucking, baby's "first bad habit," to be abolished willy nilly as soon as possible? Here is what Prof. Pairchild says: "How," asks he, "is it to be ex-

plained that these (thumb-sucking babies) when still too young to imitate what is going on around them and without being taught, acquire what many doctors and dentists declare to be a very bad habit? Bahy mud-wasps, which hatch after their mothers and fathers are dead, know how to build their complicated mud nests without being taught. Are we sure that this human habit of thumb-sucking, which has appeared successively generation after generation in very young babies, is net of similar instinctive or hereditary character?

"If it is hereditary, is it beyond question injurious, and dues it certainly produce protruding teeth and flattened thumb, and does it arch the roof of the mouth, or are these changes merely coincidental with the habit? Are we confident that by employing forcible means to cure the habit we do not run the risk of affecting the child's emotional or noral nature—of making it secretive or even untruthful? Should no: the habit be cured by the ridicule of a child's peers on the playground -by its own self-control:

"If this habit is hereditary, are not others of the same nature? And should we not, in our discipline of children, differentiate between the habits of imitation and those which are inherited?

Sucking the thumb is such an instinctive action with very young children that it is probable that most habies, if not all, indulge in the habit during the first year of life. Some people have protruding teeth in adult life, and if you examine their past history it is probable that most of them sucked their thumbs in infancy. Hence we are elected president of the Women's stance where a cause produces ex- apt to jump to the conclusion that the sucking of the thumb was the cause of the protrusion of the teeth in spite of the fact that will be a once perceived by those who know anything about atmospheric pressure that the act of suction could not possibly produce any such ef-

and stragglers from the path of morality have no place in the University of California, President David P. Barrows told almost 10,000 students assembled this morning at the first University meeting in the Greek theater. Dr. Barrows told of plans for increased military strength at the State University and which will include the training of officers for, ecoast artillery units and of awlators as well as instructions in all the latest forms of military science, 'Study to be a good soldler." h

said. "Do it intelligently, seriously, systematically. There is no place in the University of California for a slacker. Neither is there any place in a republic for a mercenary man. NEVER TURN FROM STRIFE The duty of national defense is the

duty of every man. The only real democratic system is a system of universal military strength. Civilization rests on the readiness of men and women to defend it. Let no man in this institution ever turn away from a field of strife." Dr. Earrows delivered a code of ethics which he declared all stu-dents must live up to. In this regard

he said:
"Pick out the best models American social usage and defend them. I am talking to seniors as well as to freshmen. Keep your lives clean, wholesome; remember that this is not a camp of men. Vulgarity and grossness must be banished. The infallable mark of a gentleman is his ability to recognize and attack anything that is offensive to woman. It is the first duty of a gentleman to protect the delicacy of the woman in his care. The emancipation of weman: does not necessarily relieve a gentle

man from that duty."

KEEP PUBLICATIONS CLEAN Dr. Barrows arged that anything of an offensive nature be kept out of Bolshevism and Socialism were flayed by Dr. Carrows at the concluzion of his talk.

There is much propaganda in this country that the good things of life come without earning them." he said. "That is all wrong. They are not obtained that way. America is built on a disciplinary basis and the spirit of competition also prevails strongly.

Mystery Veils Climb Brown's Car Goes High

whose was the hand that steered Captain Thorvald Brown's automobile over the Southern Pacific tracks from Emeryville and up the incline to the second deck of the Sixteenth street station is being made today by Chief of Popany.
While Chief Lynch is to ques-

tion Brown and will seek to run to earth the story that it was Brown himself who drove the car, the railroad men are trying to find out why it was that no re-port was made to the general offices. Chief Lynch admits that one of the reports in his possession justified further questioning of Brown.

"Phobably because no one was injured and the affair could not be called an accident on any of our lines," the Southern Pacific offices said today, "no report was turned in. We are looking into the matter new, however, and ex-

When found, the captain said, the car was occupied by a "Mr. Jones and his wife." The tires were badly The tires were badly cut and the machine was damuged. Marshal Carey returned to Emeryville for assistance and Brown says that he remained behind and took the automobile from the tracks.

The investigation, police officers say, starts off with more mysteries than a serial film. First, there is the statement given out at the police station that Captain Brown reported his car missing on the morning of August 2, and the counter-statement of Captain counter-statement of Captain Bodic Wallman, in charge of the Central station, that no such report was made to him-Then there is the conflict of

RUMLER DIDN'T PLAY IN LAST THREE GAMES AGAINST VERNON TEAM

Jean Dale Lost Three of Four Games Pitched Against Tigers; Dope On Maggert, Borton

By EDDIE MURPHY

"Babe" (Baker) Borton former first-sacker of the Vernon Tigers, has made a statement in which Bill Rumler. Jean Dale, Eddie Mulligan and Harl Maggert are said to have played their part in helping the Vernon Tigers win the pennant last season, and for doing their part they got in on the split of the \$2000 purse which Borton says was raised to buy the pennant for Vernon.

Following such a statement by Bahe Borton, the records of last season were looked up just 10 see how these players performed against the Ver-non Tigers in the last two series which the Salt Lake Bees and Tigers played together. The next to last runes between these class was played at Salt Lake, the week of September 16, and the second at Los Angeles at Sait Lake, the week of September 16, and the second at log Angeles the following week. Foatteen games were played in the two series, and the Tigers won mine of them. Vertor won the last five games of the second series, after the Pees had started by whoming the first game. Only six games were played in the second region because of a ramy Saturday. six games were played in the good in the grand games and then the Tigers In the first series Sait Labe won the lifet two games and then the Tigers took four in a row. Sait Labe won the last two Sinday games. The Bees and Tigers folled to play off the postponed Saintday double-header on the following Monday, as was expected.

JEAN DALE PITCHED THREE LOSING GAMES. Jean Dale, the Sant Lake pitcher, lost three of these games to the Tigers, and he managed to win one. At Gould also lost three games and wen but one for Salt Lake. Chif Markie won two games and lost two, while Spider Baum was the other Sa't Lake pitcher to work during the

RUMLER HIT HARD, BUT MISSED GAMES. RUMLER BIT HARD, BUT MISSED GAMES.

Bill Rumler has admitted receiving a \$150 draft said to come out of the split of the Vernon money. If Romler did anything in those two series to help the Tigers it is hard to find. Bill played in eleven of the fourteen games and got seventeen hits out of thirty-seven times at bat, for an average of .452 for the two series. It was one of the best hitting weeks of the season for Bill, as his season's average was .362. The only way that Bill could have helped the Tigers was by staying out of the last three games of the second stries. In the Thursday game Rumler complained of a sore hand and gout the game. He was out for the rest of the series. The Bees opened the final series of the season with the Oaks the following Tuesday at San Francisco and Rumler appeared in the line-up. Now the question is did Rumler stay out of the line-up because he realized the fight he was having with Sam Crawford for the batting crown in the Coast League, and that he couldn't gain that crown by staying in the final games against Vernon and not keep up his hitting?

RECORDS OF MAGGERT AND MULIGAN.

Harl Maggert also admits getting \$500 from Labe Borton and says he doesn't know what Babe gave it to him for. Maggert flushed last season with a batting average of .274. He played in every game of the last two series against Vernon and batted but .232. He was at bat sixty times and connected for fourteen hits. He made two errors in the out-field during the series. He also scored eight runs. Like Bill Rumler, Eddie Mulligan, the Dee third sacker, also enjoyed

couple of good weeks at hitting against the Vernon pitchers in the two a couple of good weeks at intung against the vernon pitchers in the two final series. Eddie's litting average at the end of the season was only 1269, but during the two weeks batting against Vernon pitchers he got twelve hits in thirty-nine times at hat for an average of 1308. Eddie played in twelve games. He made three hoots in thirty-nine chances. It looks hard to figure where he dot anything in hitting or fielding to help

NOW FOR BABE BORTON'S RECORD.

Bill Rumler has sold that he made a bet with Borton of the Vernon club before the end of last season. If Salt Lake won the pennant, Rumler was to give Borton \$200 or \$250, and if Vernon won the pennant, Borton was to give Rumler one of the two figures. Or, in other words, the players bet on the defeat of their own team. Babe butted 303 for the season, and against the Bees in those two weeks of the final series he hit but separate errors in the twelve games we have traced and mach once

Training Tips

By DOUG. MONTELL.
So many athletes have asked the

question of "What shall I do in the

way of training," with regard to the

way of training," with regard to the coming Eighth Annual TRIBUNE Marathon around Lake Merritt on Admisison Day that we popped the question to Frank Boek, an experienced trainer of lunners, with the result that Frank has promised to give all the boys some dope on what to do, when to do it and how to do it. There are a few obvious rules to be followed, for this race, as for any other.

BAKER BORTON MAY DRAG VERNON CLUB INTO COURT

Manager Bill Essick and Players Say Babe's Statement Is a "Mess of Lies."

LOS ANGELES, Aug. 16 .- (United Press)—Blanket denials of Babe Borton's charges that the Vernon team "bought" the Pacific Coast League pennant last year by bribes team "bought" the Pacific Coast League pennant last year by bribes paid to players on other teams, have been issued by Manager William Essick and Vernon players today, who characterized Rorton's affidavit as a "mass of Hes"

Borton charged that Robert Fisher, second baseman of the Vernon club, "took care of" Del Baker, Red Oldham, Jack Farmer, Ed Mulligan and Art Kochler with money contributed by the Vernon team Borton paid Dale, Rumler and Maggert, he said "Horton's charges are a mass of Hes," said Manager Essick. "He istrying to drag basebail and the Vernon team down with him."

Fisher denied ever having received or paid "one cent that my contract did not chil*for."

Other Vernon players denied having entered into an agreement with Essick, Fisher and Borton "to buy the pennant" during the last series with Salt Lake.

Essich points to the percentage column as one Indication of untruthfulness in Borton's charges.

"When we began the two weeks' series with Salt Lake, we were tied with Los Angeles at 500. At the end of the series los Angeles had 518, while we were two and a half games beanna with two.

BORTON STICKS TO STORY

LOS ANGELES. Aug. 16.—The sensational charges of "Babe" Borton, former memoer of the Vernon Coast league club, that certain players of other teams were paid to help Vernon win last season's penpant, were reiterated in an affidavit, he asserts, does not cover all the evidence he has in his possession. He declared he is ready to face any or all of the Vernon players and Manager William Essick in court or before a basebail tribunal. Borton declared he did not literad to let the matter drop with a flat denial by the men he accuses. He is desirous of an investigation by a commission composed of unblased citizens to be selected by William McCarthy, president of the Coast league.

"The members of the Vernon club will go just so far in their statements about me and the league will place the blame for one too many things on me and thon I will take the case into court and demand a showdown, which it doesn't appear I will get in any other way." Borton sald.

"This is not a closed incident with me. I think the finish will find a BORTON STICKS TO STORY ton said.
"This is not a closed incident with me. I think the finish will find a great many other players who are now being kindly whitewashed by the Coast league, sitting right where I am—out of baseball for all time."

A number of Vernon players who have charged by Poston with he ing implicated with him last season in buying off members of opposing clubs issued statements today vehemently denying their former team mate's accusations

SEALS HAVE FIGHTING CHANCE TO WIN FLAG; OAKS LOSE TWO GAMES For Entrants In Marathon

Locals Played Best Baseball Against the Bees and Tigers; Seals Always Beat Them

The Oaks and Seals met double defeats yesterday, but they both finished with the long end of the series in their possession and caused the race for the Coast League pennant to tighten up somewhat in the past week. The Seals had grabbed five straight wins from Killefer's Angels before they accepted yesterday's double be followed, for this race, as for any other.

They are simple. First of all, it is necessary to enter the race, file your entry blank that is printed every night in The TRIBUNE. Very simple, just cut it out, fill in all parts and mall to the sporting editor. Right then and there you become one of the candidates for honors in the Eighth Annual Merritt Marathon. Don't put it off. Delay in entering only means delay in starting actual training and every day you put it off is a day's advantage lost. Do that now. beating, and the Oaks had won four out of five games from the Tigers. The Sacramento Coyotes grabbed two Sunday wins from the Salt Lake Bees, and although they lost the series to the Bees by one gaine, they in a way helped the Seals to get back into the race established a new world's record for the pennant. By winning both games while the Bees were los- of 54 seconds flat for the dising two, the Vernon Tigers are again leading the Bees.

Two weeks ago, the Seals were figured hopelessly out of the pennant running, maybe because they were than expected against the Rainiers.

REGULATE YOUR MEALS

The next thing is to get down to work. Start leading the life of an athiete in other works, the simple life. Eat regularly, eat proper food. Get this habit and stick with it up to the time of the race. You can't condition yourself properly by eating anything at all hours of the day or night. Your system won't stand up upder it, and while you don't feel it in every day life, it tells greatly when you are up against athletes who have been training. De last with yourself and give your body as good a chance to do its best as the other fellow. noon for their Next to eating, sleeping is the most important thing. Crop prospects at the opening of the greent week are even more assuring for a large yield than they were one week ago. Harvest progress denotes hitherto unexpected yields. The wheat deficit in quantity, compared with 1919, can be made up, though there will be no shortage, but every other grain will yield larger in quantity and better in quality than last year. Wheat is now expected to go 850,000,000 bushels. Last year 900,000,000 bushels. Last year 900,000,000 bushels. Last year 900,000,000 bushels were harvested. The fiax need yield for Montana Dakota and Minnesota will go nearly four times the yield of last year.

In view of these conditions, foodstams should promise reduction in the cost of living by this time. And there is some indication in that direction, particularly in the case of wheat. That cereal has fallen off 30 cents a bushel since first estimates of shortage were reported. At present the wheat market fairly indicates lowering in the price of bread. It, with the abundant supply of other cereals in flood lines seems certain to come down.

The textile situation, however, is another matter. Though there is every prospect of a full supply of other cereals in flood lines seems certain to come down.

The textile industry. With wool producers earnestly desiring to sell and ho labor disturbance present or prospective to disturb, and with an inviting demand ahead mills are closed, wholly or in part, and production motoped. Colorado wool, last year 30%, sold at 50 and 50 cents, with an occasional small lot between that figure and 25 cents.

Fresent indications are that sugar will continue to go lower. The influx from Carribbean countries, from Arithmetical states and the sell and and 25 cents.

STOCK PRICES **NEW PRESSURE**

NEW YORK, Aug. 16. — Fresh complications in the foreign situation and indications of further strain on local financial resources caused an irregular selling movement at the open-of today's atock market. Shippings, oils, motors and steels were under severe pressure, losing 1 to 4 points. Improvement was shown by several of the active railroad issues, probably as a result of better credit conditions. Exchange on London continued very unsettled, early rates for demand bills falling slightly under last week's final quotations.

Oils, steels and equipments led the rally of the first hour, Mexican Petroleum and Baldwin Locomotive making full recoveries, while Crucible and Reployle rose substantially over last week's closing prices. Atlantic Gulf made up half of its four-point loss and other shippings improved. Much of this advantage was cancelled before noon, however, when low priced oil and motor shares were depressed. Call money opened at the recent rulling rate of 7 per cent on a very light inquiry.

Another rally during the very dull

recent ruling rate of 7 per cent on a very light inquiry.

Another rally during the very dull midsession was featured by the European oils, notably Royal Dutch and Shell Transport, the tobacco group also strengthening. Steels and other prominent industrials continued to give hesitantingly between high and low levels of the morning.

Price movements became more conflicting later, Crucible Steel and several of the sugar issues rising briskly, while American Car and related industrials reacted. Ine custing was heavy. Sales approximated 475,094 shares.

Trading Element Again Adhers to Waiting Policy

NEW YORK, Aug. 16.—The New York Evening Sun in its financial review this afternoon said: At one time or another today lower prices were made in prac-tically all of the important finan-cial markets, including stocks, cotton, wheat, oats, coffee, sugar and foreign exchange. Bonds and railroad stocks were steady to firm. The general shrinkage in prices, however, was moderate and without special feature.

The results of the day's session were inconclusive, the trading element adhering to a waiting policy in the belief that the unfavorable foreign and domestic factors have been quite thoroughly discounted for the moment. At the same time the outlook was regarded too uncertain to permit of anything more than a technical recovery of prices.

During the greater part of the session the standard issues fluctuated with a narrow range, with net losses predominating in the industrial department. United States dustrial department. RAILWAY STOCKS FAIL TO RESPOND

No response has yet been observable in railroad security quotations to the recently granted rate increases. Heart as those advances were. The market in no way has given a sign that railway bends were affected, though it is obvious that the ruling must increase railroad earnings. Moreover the provisions of the new railroad act, whereby 5½ to 8 per cent return on "fair valuation" of the roads is guaranteed has likewise so far failed to find expression in boosted must increase rairond earnings.

Moreover the provisions of the new railroad act, whereby 5½ to 8 per cent return on "fair valuation" of the roads is guaranteed has likewise so far failed to find expression in boosted rail prices.

It can not be that uncertainty as to what may be construed by the Interstate Commerce Commission to be meant by "fair valuation" when used as an element in satisfying ruto sheets influences confidence in railroad security prices, since it is pretty thoroughly established wherever in vestments are insecurity and them, and the roads by their owners is not chargeable against them. Indeed, recont investigation has proved that of cent investigation has proved that of fifly selected lines, under-valuation by their owners was the fact. It is now thought more than probable that all the feading systems are under rather than over valued by their lawners, a condition which speaks for the honesty of their management and for their rehability as dividend producers under the new order. ducers under the new order.

Railroad securities at this time, for all leading lines, are at the lowest market quotations made since the Civil War. Not even the panies of 1873, 1833 or 1907 witnessed railroad securities as low as they are now in the countries. the scale of prices. The conundrum is why is this the case? At a time when the lines are given rates higher than asked by their own experts, and are, at the same time guaranteed earning percentages beyond anything ever realized before, there should be a brisk market for their paper and at good prices. But the fact is, there is no such market, and facts are Stubberg, things. In cuest of an expension, things. born things. In quest of an explanation of this anomalous situation

U. C. Students to Assure Penalties in Honor Breaches

BERKELEY, Aug. 16.—Only five students of a total of 10,000 were dismissed from the University of California last semester for cheating in examinations, according to a report made today by J. W. Cline, chairman of the students' affairs committee.

Cline's report shows a total of more than 100 students summoned before the student committee for alleged cases of cheating and other offenses against the honor spirit on the campus. Seventy-one students called in cheating inquiries, only five were found to have violated student ethics in a sufficient degree to be punished by expulsion from the university. The deprival of credits and reprimands from President David P. Barrows were punishment inflicted in other cases. Rules governing the honor system on the campus will be rigidly enforced during the coming term was the warning given this morning by Cline to old and new students. "The student body can expect that more stringent penalties than have been ordinarily exacted will be meted out to those who have violated the honor spirit," says the hend of the student committee.

Joe is a traveling salesman. Tessie is his loving wife. Follow their letters in The OAKLAND TRIBUNE.

Well Joe, you ought to of been here today and saw the baby! He turned over all by himself. Can you imagine that, Joe, for 3 months? I left him in his crib on his little side and the next time I looked be was on his little back. I wouldn't of been surprised to of saw him on his little' stummick

Mrs. Fink came in and I told her about it-what do you think she said. Joe? She said when her Oscar was 3 months old he was sitting up already. Can you imagine that, Joe? I says to her, Mrs. Fink, I says, any child that could sit up by itself at that age must of been an infant prodigal. And she says. Well, she says, how do you know he ween't? It's no use wasting good sarcasm on people like that, is it, Joe?

What do you think of the League of Nations, Joe? I still try to keep up with the news, though what with the baby and the housework, it's ro bagatelle, take it from me. I sin't kicking, Joe, but wish you'd stay home and try it for a while and leave me go out on the road and sell Daisy Canned Soups.

And say, Joe. please don't send home any more samples. I finished last case of Daisy Soups you sent home, out of a feeling of duty before pleasure, but my stummick is jest starting to feel all right again, and I don't hardly think I can get the neighbors to accept any more caus, so please don't send home any more samples, Joe. JURISTS' CONDUCT

There is a question lurking in the the club has had a membership minds of Judge Harry Pulcifer and iows: Yesterday Mrs. W. C. Webster, 414 Central avenue, reported to cent increase in the wholesale price the Alameda police department that of furniture in the next 20 days her slumbers were disturbed by bather or bathers who took a plunge off the bay shore each morning be-fore 7 o'clock. She is said to have declared the noise and clamoring of the swimmers led her to believe the were demented.

Close inquiry of the proprietor of the adjacent bathing beach has rought forth the information that ludges Cary and Pulcifer are the only ones who take the morning plunge, motoring here from their homes in high and dry Piedmont. Now the question is being asked. Can the two attorneys be as noisy as claimed, in the mornings?

Don't send home any more samples, will you, Joe? I started to say something about the League of Nations, but I forgot what, now. Don't you think Mary Pickford and Dug Fairbanks make a wonderful couple, Joe? She's such a sweet girl, or at least she seems to be in her picktures and they say the camera don't lie, though it certainly told a wopper the last time you had your fotograph taken, didn't it. Joe? I never accaused you of being handsome, Joe, but you're a regular Appolinaris com

pared to that picture. By-by, Joe. Take care of yourself and don't show no merry in selling
